SAXTON J. FOSS PARK  
AUTUMN CLEAN-UP

SATURDAY, OCTOBER 23, 2004  
12:00 NOON – 3:00 PM

- Please help the community restore beauty to Somerville's largest green space!
- Foss Park is 14.62 acres, 12% of Somerville's available green space.
- Foss Park is managed by the Commonwealth's Department of Conservation & Recreation and *NOT* the City of Somerville.
- DCR can afford only 11 full-time employees to maintain the entire Charles River Basin, which includes Foss Park.
- This is not doing the DCR's job, but showing our State agency that area residents really care about this park and the Foss Park community at large.
- On any given day, countless residents, visitors, athletic teams, children, and dog owners use the numerous amenities for exercise and relaxation.

*"crime prevention through park restoration"*
